

TEMPLATES

- Acceptable Template materials are: Hardboard; ply; polycarb; solid sheet material.
- Flexible edges or fluted items such as corex or single skin cardboard cannot be accepted.
- Templates must be flat on one side and all details such as cutouts, notches, holes, be clearly marked on the front side. Also to include name and contact details.
- No Screws, screwheads or protruding objects will be accepted on templates.
- The template must be the exact size you require the glass to be. All templates given will not be adjusted by us. i.e add 10mm here or make this rounded will not be accepted.
- The company takes no responsibility for return of templates, all-though we will try our upmost to retain them.
